

HB 1052 -- LAND SURVEYORS (Miller)

COMMITTEE OF ORIGIN: Standing Committee on Professional  
Registration and Licensing

This bill removes from the description of the practice of a professional land surveyor work which involves the survey of easements. The survey and location of rights-of-way are not exclusive to professional land surveyors unless the survey affects real property rights as defined in current law. The bill specifies that any document prepared between August 27, 2014 and August 28, 2015, must remain valid and enforceable even though any legal description contained in the document was not prepared by a professional land surveyor.
